Susan Weber

From : Department of Water Resources

Subject : DWR Support for the CALFED Bay-Delta Program

Over the past six months, the CALFED Bay-Delta Program management staff has met with their Program Coordination Team (PCT) to facilitate interagency coordination with the Program. The PCT consists of representatives of DWR, DFG, USBR, USFWS, USEPA, and NMFS.

DWR Members of the Coordination Team (PCT):

Randy Brown	Stein Buer	Kathlin Johnson
Kathy Kelly	Dave Sandino	

As you may be aware, the Bay-Delta Program has begun an alternative review process requiring the participation of additional individuals who have specific knowledge and expertise. This has resulted in the formation of the Expanded Review Team (ERT). As the review process evolves, individuals may be added to the ERT to carry out this task.

DWR Members of the Review Team (ERT):

George Barnes	Stein Buer (Leadperson)	Earl Cummings	Steve Ford
Les Harder	Curt Schmutte	Jim Spence	Rick Woodard

The PCT and the ERT will be meeting intensively through March. The level of effort is expected to be less from April through June. The public workshops will also continue during this time. The participation of Department staff in these workshops has contributed to their effectiveness by providing technical information and stimulating discussion. At least one representative from ESO, DLA, DOP, Central District, and O&M should continue to attend the workshops.

Ray Hart, et al

Page Two

Stein Buer is the DWR technical leadperson for our support/coordination with the Bay-Delta Program. In addition to working with members of the ERT and other DWR staff to meet the program needs, he will keep all DWR PCT and ERT members informed of our technical support activities in a timely manner.
